Still Studying

About Me

As a junior software developer with a diverse background spanning technical support, help desk, and systems development, I bring a unique blend of skills and experiences to the table. My dedication to continuous growth and pursuit of excellence has driven me to excel in various aspects of the tech industry. I am enthusiastic about joining a dynamic team that values innovation and collaboration.

Professional Experience

Younglings | Junior Software developer 2023 – Present

Key responsibilities:

- Coding and Programming: Crafting code using programming languages and frameworks pertinent to the project, such as Bootstrap and JavaScript.
- Problem Solving: Delving into and resolving technical issues and hurdles encountered throughout the development journey, necessitating research and the exploration of fresh solutions.
- Code Review: Engaging in code review with senior developers to compliance with coding standards, and the implementation of best practices.

Altron | Intern Systems development 2020 – 2021

Key responsibilities

- Gathering requirements
- Providing maintenance and support
- Troubleshooting and issue resolution
- Engaging in programming and coding
- Documenting processes and information

Technical Support | Contractor 2018 – 2020

Key responsibilities:

- Performing installation, setup, and maintenance tasks
- Acting as the initial contact for IT support within the organization
- Engaging in troubleshooting and creative problem-solving
- Identifying and resolving software and hardware issues
